Artist in residence at Kata Rocks, Arnaud Nazare-Aga, is extending his extraordinary display. This offers perspective art aficionados a unique chance to own one of his impressive collection of colourful, creative sculptures from now until 28 April 2018.

Arnaud's signature style is inspired by sensual lines and gentle roundness. His vivacious work elicits a large amount of public appreciation from viewers in Europe and Asia as it offers a unique perspective on life that often provokes amusement and laughter.

Born in Paris in 1965, Arnaud received his plasterer and molder training while being educated at a Buddhist community in Burgundy. Later in life Arnaud embarked on a life-changing and artistic journey and established the PAJ'Art Studio in Bangkok, Thailand.

A ground-breaking exhibition for the blind and sight impaired that cemented Arnaud's risk-taking reputation in Asia was held at Singapore's Fullerton Hotel in 2013. It showcased for the first time his 'Little Prince Art Collection', featuring 14 sculptures in his preferred medium of fiberglass-reinforced resin. Each were moulded then assembled, painted and varnished multiple times with a high-gloss finish – all by hand.

Currently all Arnaud Nazare-Aga's sculptures on display at Kata Rocks are for sale. Guests are welcome to visit and check out his cheeky artwork, which is prominently displayed on shelves in the resort's Oceanfront Clubhouse, and playfully placed in the lush surroundings of the resort's signature 35-metre infinity swimming pool.

There are small panels next to each sculpture displaying information and pricing details. For more information or media inquiries please contact info@infiniteluxury.com.
